Microbiology: A Laboratory Manual, Books a la Carte Edition (11th Edition) By James G. Cappuccino, Chad T. Welsh

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a Course ID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

For courses in Microbiology Lab and Nursing and Allied Health Microbiology Lab

A Flexible Approach to the Modern Microbiology Lab
Easy to adapt for almost any microbiology lab course, this versatile, comprehensive, and clearly written manual is competitively priced and can be paired with any undergraduate microbiology text. Known for its thorough coverage, straightforward procedures, and minimal equipment requirements, the **Eleventh Edition** incorporates current safety protocols from governing bodies such as the EPA, ASM, and AOAC. The new edition also includes alternate organisms for experiments for easy customization in Biosafety Level 1 and 2 labs. New lab exercises have been added on Food Safety and revised experiments, and include options for alternate media, making the experiments affordable and accessible to all lab programs. Ample introductory material, engaging clinical applications, and laboratory safety instructions are provided for each experiment along with easy-to-follow procedures and flexible lab reports with review and critical thinking questions.

Editorial Review

About the Author

James G. Cappuccino is a retired professor emeritus of microbiology from the Department of Biology of the State University of New York at Rockland Community College in Suffern, New York. He received his B.S degree from Seton Hall University in 1951, his M.S degree (1955) and his Ph.D. (1957) in microbiology from Rutgers University in New Brunswick, New Jersey. He was the author and co-author of numerous papers in the area of cancer research, and was a member of the faculty of the Sloan Kettering Division of the Graduate school of Medical Sciences at Cornell University where he taught microbiology from 1957-1970. From there, he taught microbiology, parasitology and clinical chemistry at SUNY Rockland until 2008. He was awarded the status of emeritus professor in 2012. In 1991 he was the recipient of the Chancellor's award from the State University of New York for Excellence in Teaching. He is an emeritus member of the American Society for Cancer Research (ASCR) and an emeritus member of American society for Microbiology (ASM). When not writing he enjoys spending time with his wife Elaine and their family at their summer home at the New Jersey shore. He also enjoys theater, literature, and the quiet hour in his wood working shop.

Chad T. Welsh holds a Ph.D. in Microbiology and Immunology from the University of Louisville, School of Medicine, also an M.S. and B.S. in Biology from Middle Tennessee State University. Currently he is the Chair of the Division of Biological and Earth Sciences at Lindenwood University in St. Charles, MO where he has the privilege of teaching Microbiology, both for non-majors and majors, Cellular Immunology, Parasitology, and many other courses since 2010. His research interests fall within bacteriology, eukaryotic cell biology, and immunology, focusing primarily on intracellular eukaryotic signals in response to pulmonary bacterial pathogens. His mentored research projects with his students have spanned the interest areas of soil microbial ecology, immune stress responses in collegiate athletes, oral bacterial flora communities, and many others.

Users Review

From reader reviews:

Cari Sexton:

Do you have favorite book? Should you have, what is your favorite's book? Book is very important thing for us to learn everything in the world. Each publication has different aim or even goal; it means that guide has different type. Some people truly feel enjoy to spend their the perfect time to read a book. They can be reading whatever they get because their hobby is definitely reading a book. Think about the person who don't like reading through a book? Sometime, man feel need book when they found difficult problem or maybe exercise. Well, probably you will require this Microbiology: A Laboratory Manual, Books a la Carte Edition (11th Edition).

Dennis Ross:

Nowadays reading books are more than want or need but also turn into a life style. This reading behavior give you lot of advantages. Advantages you got of course the knowledge the actual information inside the book which improve your knowledge and information. The information you get based on what kind of publication you read, if you want have more knowledge just go with training books but if you want feel happy read one together with theme for entertaining like comic or novel. The particular Microbiology: A Laboratory Manual, Books a la Carte Edition (11th Edition) is kind of book which is giving the reader erratic experience.

Marian Storie:

You may get this Microbiology: A Laboratory Manual, Books a la Carte Edition (11th Edition) by browse the bookstore or Mall. Merely viewing or reviewing it could to be your solve trouble if you get difficulties for your knowledge. Kinds of this e-book are various. Not only through written or printed but can you enjoy this book by means of e-book. In the modern era like now, you just looking by your local mobile phone and searching what your problem. Right now, choose your current ways to get more information about your reserve. It is most important to arrange you to ultimately make your knowledge are still up-date. Let's try to choose proper ways for you.

Joshua Castillo:

As a student exactly feel bored in order to reading. If their teacher requested them to go to the library as well as to make summary for some guide, they are complained. Just little students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that reading is not important, boring as well as can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Microbiology: A Laboratory Manual, Books a la Carte Edition (11th Edition) can make you really feel more interested to read.
