Editorial Review

Review
Clearly written, the book shows methods for diagnosis, prognosis and treatment. It is a simple book to follow and it allows virtually any astrologer who can read a chart to bring healing to themselves and others. It's a lovely practical book, but one that also gives insights into traditional techniques and philosophies. It gives greater depth than may be thought at first glance...if you are interested in classical medical astrology and wish to learn how you can apply it in a practical way to everyday life, then this is the book for you. John Green, The Astrological Journal, May/June 2010.
