The Automated Lighting Programmer's Handbook By Brad Schiller

From basic principles of automated lighting, to pre-production preparations, the text details concepts, procedures, and guidelines to ensure a successful production. Then the author continues with in-depth explanations for beginning, intermediate, and advanced programmers. Additional sections explore troubleshooting principles, working relationships, and future technologies. For the final chapter of the book, the author interviewed many respected lighting industry veterans including John Broderick, Christian Choi, Laura Frank, Jim Lenahan, and Arnold Serame.

Editorial Review

Review
"For all those who want to be the guy behind the moving light console this book is a great first step on the road. For all those who are already that guy, this book has some good tips and tricks from one of the best." -- Mike Falconer, A.C.T Lighting, Inc.

About the Author
Brad Schiller has over 20 years experience in the lighting industry. He has worked as a Technical Director and Lighting Designer, as well as an Automated Lighting Programmer. He has also been employed by High End Systems where he has assisted with product development, training, and testing for many popular fixtures and consoles. Brad has experience with various types of productions including theatre, television, concerts, film, architectural, dance, and industrials. Project favorites include: The 1996 Academy Awards, the Capitol of Puerto Rico, The Sydney 2000 Olympic Games Opening and Closing Ceremonies, The Crystal Method, and Metallica. Brad Schiller is also a featured columnist for Projection Lights and Staging News (PLSN). His monthly column titled "Feeding the Machines" teaches programming principles in a simple and straightforward manner. Furthermore, he has written for other industry publications and authored several industry manuals. Brad was presented with the Technician of the Year award at the 2005 LDI awards ceremony and described as "the programmer's programmer”.

Users Review

From reader reviews:

David Manning:

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to learn everything in the world. Each guide has different aim or maybe goal; it means that book has different type. Some people truly feel enjoy to spend their a chance to read a book. They are reading whatever they take because their hobby is usually reading a book. Why not the person who don't like studying a book? Sometime, man or woman feel need book once they found difficult problem or perhaps exercise. Well, probably you should have this The Automated Lighting Programmer's Handbook.

James Matter:

Book is to be different per grade. Book for children until eventually adult are different content. As you may know that book is very important for people. The book The Automated Lighting Programmer's Handbook has been making you to know about other understanding and of course you can take more information. It is rather advantages for you. The e-book The Automated Lighting Programmer's Handbook is not only giving you much more new information but also for being your friend when you feel bored. You can spend your own personal spend time to read your e-book. Try to make relationship with all the book The Automated Lighting Programmer's Handbook. You never really feel lose out for everything in case you read some books.

Julie Tice:

Exactly why? Because this The Automated Lighting Programmer's Handbook is an unordinary book that the inside of the reserve waiting for you to snap this but latter it will shock you with the secret it inside. Reading this book close to it was fantastic author who have write the book in such amazing way makes the content inside easier to understand, entertaining technique but still convey the meaning completely. So , it is good for you because of not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of advantages than the other book get such as help improving your proficiency and your critical thinking approach. So , still want to hesitate having that book? If I were you I will go to the reserve store hurriedly.

Timothy Holeman:

What is your hobby? Have you heard that question when you got pupils? We believe that that concern was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. And also you know that little person like reading or as reading become their hobby. You have to know that reading is very important and book as to be the point. Book is important thing to add you knowledge, except your own teacher or lecturer. You will find good news or update about something by book. A substantial number of sorts of books that can you go onto be your object. One of them is actually The Automated Lighting Programmer's Handbook.
