WHO Classification of Tumours of the Central Nervous System (IARC WHO Classification of Tumours) By International Agency for Research on Cancer

WHO Classification of Tumours of the Central Nervous System is the revised fourth edition of the WHO series on histological and genetic typing of human tumors. This authoritative, concise reference book provides an international standard for oncologists and pathologists and will serve as an indispensable guide for use in the design of studies monitoring response to therapy and clinical outcome.

Diagnostic criteria, pathological features, and associated genetic alterations are described in a disease-oriented manner. Sections on all recognized neoplasms and their variants include new ICD-O codes, epidemiology, clinical features, macroscopy, pathology, genetics, and prognosis and predictive factors. The book, prepared by 122 authors from 19 countries, contains more than 800 color images and tables, and more than 2800 references.

This book is in the series commonly referred to as the "Blue Book" series.

Editorial Review

Users Review

From reader reviews:

Micheal Taylor:

Book is definitely written, printed, or illustrated for everything. You can know everything you want by a reserve. Book has a different type. As you may know that book is important matter to bring us around the world. Beside that you can your reading ability was fluently. A reserve WHO Classification of Tumours of the Central Nervous System (IARC WHO Classification of Tumours) will make you to be smarter. You can feel a lot more confidence if you can know about every little thing. But some of you think this open or reading a book make you bored. It is not necessarily make you fun. Why they are often thought like that? Have you looking for best book or suited book with you?

Eden Cohn:

What do you concentrate on book? It is just for students as they are still students or the item for all people in the world, the particular best subject for that? Merely you can be answered for that question above. Every person has diverse personality and hobby per other. Don't to be compelled someone or something that they don't need do that. You must know how great and also important the book WHO Classification of Tumours of the Central Nervous System (IARC WHO Classification of Tumours). All type of book is it possible to see on many options. You can look for the internet options or other social media.

Dwight Hancock:

Playing with family in the park, coming to see the sea world or hanging out with pals is thing that usually you may have done when you have spare time, in that case why you don't try point that really opposite from that. One activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love WHO Classification of Tumours of the Central Nervous System (IARC WHO Classification of Tumours), you can enjoy both. It is good combination right, you still would like to miss it? What kind of hang type is it? Oh seriously its mind hangout people. What? Still don't understand it, oh come on its known as reading friends.

Christopher Evan:

Reading a guide make you to get more knowledge from the jawhorse. You can take knowledge and information originating from a book. Book is published or printed or created from each source in which filled update of news. With this modern era like now, many ways to get information are available for a person. From media social including newspaper, magazines, science book, encyclopedia, reference book,

book and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just seeking the WHO Classification of Tumours of the Central Nervous System (IARC WHO Classification of Tumours) when you desired it?
