BIOS Instant Notes in Inorganic Chemistry By Tony Cox

Instant Notes in Inorganic Chemistry, second edition has been fully updated and new material added on developments in noble-gas chemistry and the synthesis, reactions and characterization of inorganic compounds. New chapters cover the classification of inorganic reaction types concentrating on those useful in synthesis; techniques used in characterizing compounds, including elemental analysis; spectroscopic methods (IR, NMR) and structure determination by X-ray crystallography; and the factors involved in choosing appropriate solvents for synthetic reactions.

The new edition continues to provide concise coverage of inorganic chemistry at an undergraduate level, offering easy access to all important areas of inorganic chemistry in a format which is ideal for learning and rapid revision.

Editorial Review

Review
""The book is a distillation of many of the key points covered in undergraduate chemistry texts."
."
vol 7, no 12
-E-Streams, December 2004
..." A brief and very readable overview of most of the major concepts covered in inorganic chemistry textbook.."
Vol. 82 No. 2
-Journal of Chemical Education, February 2005

From the Publisher
Instant Notes titles focus on core information and are designed to help undergraduate students come to grips with a subject quickly and easily. Instant Notes in Inorganic Chemistry, Second Edition has been fully updated and new material has been added on recent developments in noble-gas chemistry and the synthesis, reactions and characterization of inorganic compounds. New chapters cover the classification of inorganic reaction types concentrating on those useful in synthesis; techniques used in characterizing compounds, including elemental analysis; spectroscopic methods (IR, NMR) and structure determination by X-ray crystallography; and the factors involved in choosing appropriate solvents for synthetic reactions.

The new edition continues to provide concise, comprehensive coverage of inorganic chemistry at an undergraduate level, offering easy access to all important areas of inorganic chemistry in a format which is ideal for learning and brushing-up before exams.

Users Review

From reader reviews:

Adam Allen:

Book is usually written, printed, or created for everything. You can realize everything you want by a publication. Book has a different type. We all know that that book is important point to bring us around the world. Adjacent to that you can your reading proficiency was fluently. A book BIOS Instant Notes in Inorganic Chemistry will make you to be smarter. You can feel more confidence if you can know about almost everything. But some of you think this open or reading the book make you bored. It is not make you fun. Why they might be thought like that? Have you seeking best book or ideal book with you?

Gertrude Knudsen:

Typically the book BIOS Instant Notes in Inorganic Chemistry will bring you to the new experience of reading a book. The author style to clarify the idea is very unique. If you try to find new book to study, this book very suited to you. The book BIOS Instant Notes in Inorganic Chemistry is much recommended to you

to learn. You can also get the e-book in the official web site, so you can more easily to read the book.

Darla Kemp:

As we know that book is significant thing to add our information for everything. By a reserve we can know everything you want. A book is a range of written, printed, illustrated or blank sheet. Every year had been exactly added. This book BIOS Instant Notes in Inorganic Chemistry was filled concerning science. Spend your extra time to add your knowledge about your research competence. Some people has various feel when they reading a book. If you know how big benefit of a book, you can really feel enjoy to read a reserve. In the modern era like at this point, many ways to get book that you wanted.

Michael Hilton:

As a college student exactly feel bored to be able to reading. If their teacher asked them to go to the library or make summary for some e-book, they are complained. Just small students that has reading's internal or real their pastime. They just do what the teacher want, like asked to the library. They go to there but nothing reading significantly. Any students feel that reading is not important, boring as well as can't see colorful pics on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this BIOS Instant Notes in Inorganic Chemistry can make you feel more interested to read.
