Maximum Wireless Security By Cyrus Peikari, Seth Fogie

Maximum Wireless Security is a practical handbook that reveals the techniques and tools crackers use to break into wireless networks, and that details the steps network administrators need to take to secure their systems.

The authors provide information to satisfy the expert's hunger for in-depth information with actual source code, real-world case studies, and step-by-step configuration recipes.

The book includes detailed, hands-on information that is currently unavailable in any printed text -- information that has been gleaned from the authors' work with real wireless hackers ("war drivers"), wireless security developers, and leading security experts.

Editorial Review

From the Back Cover

Maximum Wireless Security is a practical handbook that reveals the techniques and tools crackers use to break into wireless networks, and that details the steps network administrators need to take to secure their systems.

The authors provide information to satisfy the expert's hunger for in-depth information with actual source code, real-world case studies, and step-by-step configuration recipes.

The book includes detailed, hands-on information that is currently unavailable in any printed text -- information that has been gleaned from the authors' work with real wireless hackers ("war drivers"), wireless security developers, and leading security experts.

About the Author

Dr. Cyrus Peikari finished his formal training with honors in electrical engineering at Southern Methodist University in 1991. For eight years Dr. Peikari taught advanced mathematics at the SMU Learning Enhancement Center in Dallas, Texas. He has also worked as a telecommunications software research and development engineer for Alcatel. Dr. Peikari has developed several award-winning security software programs. He also co-founded DallasCon, the largest annual wireless security conference in the Southwest. You can reach him at **cyrus@virusmd.com**.

Seth Fogie is a former United States Navy nuclear engineer. After retiring from the Navy, Mr. Fogie worked as a technical support specialist for a major Internet service provider, during which time he earned his MCSE. Currently, Mr. Fogie is director of engineering at VirusMD Wireless Security, where he develops next-generation mobile security software.

Brett L. Neilson is a network and system engineer with a strong background in the wireless industry. Mr. Neilson has previously worked for Verizon Wireless as a Senior Systems Administrator and RF Field Technician. While at Verizon he worked to develop, deploy, and maintain its national infrastructure. Currently Mr. Neilson works for a leading infosec corporation. As an FCC licensed amateur radio operator, he has worked with various government agencies providing communication assistance and coordination. His broad range of computer and RF skills has led him to perform groundbreaking research in practical wireless security. Mr. Neilson also teaches a series of review courses for the Wireless Security Expert Certification (WSEC).

Sten Lannerstrom is product portfolio manager at SmartTrust, a provider of infrastructure software for securing and managing mobile services and devices. Mr. Lannerstrom joined SmartTrust in 1997 (at that time iD2 Technologies) and has more than 22 years of experience in the area of information technology. Mr. Lannerstrom oversees SmartTrust's wireless security portfolio, including the use of smart cards, wireless devices, digital certificates, and biometrics. He holds the CISA (Certified Information Systems Auditor) accreditation.

Users Review

From reader reviews:

Darrell Fowler:

Reading a reserve can be one of a lot of exercise that everyone in the world adores. Do you like reading book thus. There are a lot of reasons why people like it. First reading a e-book will give you a lot of new facts. When you read a e-book you will get new information due to the fact book is one of a number of ways to share the information or perhaps their idea. Second, examining a book will make anyone more imaginative. When you looking at a book especially hype book the author will bring that you imagine the story how the character types do it anything. Third, you are able to share your knowledge to other individuals. When you read this Maximum Wireless Security, you can tells your family, friends as well as soon about yours publication. Your knowledge can inspire others, make them reading a reserve.

Gerald Toups:

People live in this new moment of lifestyle always attempt to and must have the spare time or they will get large amount of stress from both lifestyle and work. So , once we ask do people have time, we will say absolutely sure. People is human not a robot. Then we question again, what kind of activity have you got when the spare time coming to anyone of course your answer may unlimited right. Then do you try this one, reading books. It can be your alternative throughout spending your spare time, typically the book you have read is actually Maximum Wireless Security.

Gavin Wilkins:

Playing with family inside a park, coming to see the water world or hanging out with close friends is thing that usually you have done when you have spare time, subsequently why you don't try thing that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Maximum Wireless Security, you may enjoy both. It is great combination right, you still need to miss it? What kind of hang type is it? Oh can happen its mind hangout men. What? Still don't obtain it, oh come on its known as reading friends.

Christopher Pipkin:

This Maximum Wireless Security is completely new way for you who has attention to look for some information mainly because it relief your hunger of information. Getting deeper you in it getting knowledge more you know otherwise you who still having little bit of digest in reading this Maximum Wireless Security can be the light food for yourself because the information inside that book is easy to get simply by anyone. These books create itself in the form which can be reachable by anyone, yep I mean in the e-book type. People who think that in guide form make them feel drowsy even dizzy this guide is the answer. So there is no in reading a e-book especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss the item! Just read this e-book kind for your better life along with knowledge.
