Britain and Ireland 1050-1530: Economy and Society (An Economic and Social History of Britain) By Richard Britnell

This book analyzes the economic and social development of Britain and Ireland between 1050 and 1530. It compares economic institutions, the structure of production and rates of economic development and is richly supplied with up-to-date evidence. After considering the principal geographical, cultural and political constraints on economic development, the book examines in detail the development of towns and trade, settlement patterns, agriculture and relations between lords and tenures. The book is structured so that it can be used on both short courses and longer ones, with the material divided at 1300 in order to facilitate its adaptation for different study needs.

Editorial Review

Review
...a superb textbook covering the economy of the British Isles from 1050 to 1530...What makes this book so valuable [...is] its comprehensiveness and sure-footed approach throughout...the book is likely to be the standard work on the topic for many years to come...a tour de force of intelligent assessment and penetrating insight. John Langdon, University of Alberta By any standard, this book is an impressive achievement ... this book is the definitive statement of our times about those more distant times. H.B. Clarke, The Ricardian This important book represents the first meaningful attempt to provide an overview of the economy and society in Britain and Ireland during the middle ages. The English Historical Review

About the Author
Richard Britnell is Emeritus Professor of History at the University of Durham. He has written extensively on this period of British history.

Users Review

From reader reviews:

Anna Elam:

Book will be written, printed, or illustrated for everything. You can know everything you want by a reserve. Book has a different type. To be sure that book is important thing to bring us around the world. Alongside that you can your reading talent was fluently.
