Elementary Statistics By Robert R. Johnson, Patricia J. Kuby

ELEMENTARY STATISTICS, Eighth Edition offers comprehensive coverage of elementary statistics in a language that speaks to today's students. This text goes beyond formulas, offering 'real-world' data and examples that present statistics as a useful tool in real-world applications, e.g. physical and social sciences, business, and engineering. The authors promote the learning of statistics in a context that relates to personal experience. ELEMENTARY STATISTICS features modern ideas by integrating the use of computer output and instruction for every exercise.

Editorial Review

Review
"The clarity and ease of reading are certainly strengths of this book...The exercises are great!"

About the Author
Robert R. Johnson is Professor of Mathematics Emeritus and a former chair of the Mathematics Department at Monroe Community College. He received his B.S. from SUNY Cortland and his M.A. from University of Northern Iowa, both in mathematics; and has studied statistics at University of Iowa and Rochester Institute of Technology. Bob was the author of ELEMENTARY STATISTICS and JUST THE ESSENTIALS OF STATISTICS until being joined by co-author Patricia Kuby. They also co-author STAT. Professor Johnson has given several presentations about the "teaching of statistics" and the use of MINITAB in teaching statistics at various conferences and workshops. He used computers and MINITAB for over 30 years to aid in teaching statistics. He was also an active advocate for writing across the curriculum. Organizing the Beyond the Formula Statistics Conferences for teachers of Introductory Statistics was a passion from 1997 through 2005.

Patricia J. Kuby is Professor of Mathematics at Monroe Community College in Rochester, New York. Prior to coming to MCC, she taught at the Rochester Institute of Technology and worked as a statistician and programmer at General Motors. Patricia has been a co-author of ELEMENTARY STATISTICS since the eighth edition, JUST THE ESSENTIALS OF ELEMENTARY STATISTICS since the ninth edition and STAT. She has also written the accompanying Instructor's Resource Manuals and Student Solutions Manuals. Patricia is an active advocate for incorporating MINITAB and Interactive Applets into online and on-campus statistics classes and has given presentations on each of these software packages, as well as the integration of a Student Response System (clickers) in a statistics class. While at RIT, Patricia received the Excellence in Adjunct Teaching Award. She also received the Monroe Community College 2004/2005 Writing Across the Curriculum Outstanding Faculty Award for the integration of writing components into her statistics courses and the 2007/2008 SUNY Chancellor's Award for Excellence in Teaching. An MCC graduate, Patricia received a B.S. in Mathematics and an M.S. in Quality and Applied Statistics from Rochester Institute of Technology.

Users Review

From reader reviews:

Joshua Stamper:

The event that you get from Elementary Statistics will be the more deep you searching the information that hide within the words the more you get considering reading it. It does not mean that this book is hard to be aware of but Elementary Statistics giving you thrill feeling of reading. The copy writer conveys their point in selected way that can be understood by simply anyone who read this because the author of this guide is well-known enough. This specific book also makes your current vocabulary increase well. Making it easy to understand then can go together with you, both in printed or e-book style are available. We propose you for having this Elementary Statistics instantly.

Anthony Flowers:

This Elementary Statistics is great reserve for you because the content which is full of information for you who have always deal with world and get to make decision every minute. That book reveal it info accurately using great coordinate word or we can state no rambling sentences included. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only offers you straight forward sentences but difficult core information with wonderful delivering sentences. Having Elementary Statistics in your hand like obtaining the world in your arm, data in it is not ridiculous one particular. We can say that no book that offer you world with ten or fifteen small right but this reserve already do that. So , this is good reading book. Hello Mr. and Mrs. stressful do you still doubt which?

Linda Henderson:

In this period globalization it is important to someone to acquire information. The information will make professionals understand the condition of the world. The fitness of the world makes the information quicker to share. You can find a lot of sources to get information example: internet, classifieds, book, and soon. You can see that now, a lot of publisher that will print many kinds of book. The particular book that recommended for your requirements is Elementary Statistics this book consist a lot of the information from the condition of this world now. This particular book was represented just how can the world has grown up. The terminology styles that writer make usage of to explain it is easy to understand. Often the writer made some analysis when he makes this book. Honestly, that is why this book acceptable all of you.

Vanessa Kistler:

This Elementary Statistics is brand-new way for you who has curiosity to look for some information because it relief your hunger of knowledge. Getting deeper you into it getting knowledge more you know or else you who still having little bit of digest in reading this Elementary Statistics can be the light food for you because the information inside this specific book is easy to get by means of anyone. These books build itself in the form and that is reachable by anyone, yep I mean in the e-book web form. People who think that in book form make them feel drowsy even dizzy this publication is the answer. So there is not any in reading a book especially this one. You can find actually looking for. It should be here for an individual. So , don't miss the idea! Just read this e-book style for your better life and also knowledge.
