The War Chronicles: From Flintlocks to Machine Guns By Joseph Cummins

A Global Survey of Modern Warfare, from the First Fervid Days of the French Revolution of 1789 to the Bloody Stalemate that Ended the Iran-Iraq War in 1988
In the modern era, warfare entered a new phase. Technological innovation yielded evermore destructive weaponry, international communications and alliances greatly extended the reach of conflicts, and military strategists increasingly targeted infrastructure and civilians, while new media—first photography, then film and television—conveyed the horror and brutality of industrialized combat to those who had the good fortune to live beyond the battle zones.
The War Chronicles: From Flintlocks to Machine Guns adopts the innovative and accessible format of its predecessor, which spanned the period from 500 BC to the American Revolution, to chart the astonishingly rapid evolution of modern warfare. In doing so, it traces the transformation of battle tactics, from the prearranged set-piece encounters of the Napoleonic Wars to the massive naval landings and aerial bombardments of World War II, explains the scientific innovations that yielded the machine gun, the tank, and the atom bomb, and vividly renders the key victories that turned the tide of war, from Waterloo to Gettysburg and D-Day. At the same time, it reiterates the constants of conflict: the slaughters and massacres, including the Holocaust and the little-known Taiping Rebellion, which killed up to forty million Chinese; the personal sacrifices made by those battling tyranny, among them the rebels of revolutionary France, Greece, and Mexico; and the extraordinary influence of charismatic leaders, ranging from Napoleon and Pancho Villa to Mao Zedong and Hitler.
Sweeping in its scope, yet intimate in its insights into the motivations of politicians, strategists, commanders, and soldiers, this is a collection that will enhance your understanding of the modern world and your own place in it.

Editorial Review

Review

"The second half of Joe Cummins's remarkable chronicle is as impressive as the first. Incorporating a staggering amount of research into a cleverly organized volume, he charts the evolution of modern war from the early modern era to our own. Fascinating and eminently accessible." *—Cormac O'Brien, author of The Forgotten History of America and Secret Lives of the U.S. Presidents*

Praise for the first volume of *The War Chronicles: From Chariots to Flintlocks*:
"…Cummins offers short, chronological narratives of dozens of subjects, from the Greco-Persian Wars and King Leonidas through the American Revolution and Gentleman Johnny Burgoyne. Featuring strong color images, it is an easily navigated compilation with time lines and wide-ranging subpieces that add interest…it is also simply a fun book that you might pick up over and over to check your memory of, say, the Battle of Poltava." *—Library Journal*

There is great narrative here—really great narrative history—but readers of military history will especially appreciate the book's unique format which spotlights the salient facts of each conflict. Chronology, Combatants, Commanders, Theater of War, Casualties, and Turning Point, which recounts in gripping detail the battle in which the war was lost or won. *—Thomas J. Craughwell, author of The Second Largest Empire in the World, Failures of the Presidents, and Stealing Lincoln's Body*

About the Author
Joseph Cummins (Maplewood, NJ) is the author of History's Great Untold Stories: Larger Than Life Characters and Dramatic Events That Changed the World. His forthcoming books include Turn Around and Run Like Hell: Unconventional Military Strategies That Worked, History's Greatest Hits, and Anything for a Vote: Dirty Tricks and October Surprises in America's Presidential Campaigns

Users Review

From reader reviews:

Rafael Brooks:

As people who live in the particular modest era should be update about what going on or facts even knowledge to make all of them keep up with the era that is always change and move ahead. Some of you maybe will update themselves by studying books. It is a good choice for yourself but the problems coming to you actually is you don't know which one you should start with. This The War Chronicles: From Flintlocks to Machine Guns is our recommendation to cause you to keep up with the world. Why, since this book serves what you want and need in this era.

Carrie Wakefield:
