Computer Vision - ECCV 2014 Workshops: Zurich, Switzerland, September 6-7 and 12, 2014, Proceedings, Part II (Lecture Notes in Computer Science)
From Springer

The four-volume set LNCS 8925, 8926, 8927, and 8928 comprises the thoroughly refereed post-workshop proceedings of the Workshops that took place in conjunction with the 13th European Conference on Computer Vision, ECCV 2014, held in Zurich, Switzerland, in September 2014.

The 203 workshop papers were carefully reviewed and selected for inclusion in the proceedings. They where presented at workshops with the following themes: where computer vision meets art; computer vision in vehicle technology; spontaneous facial behavior analysis; consumer depth cameras for computer vision; "chalearn" looking at people: pose, recovery, action/interaction, gesture recognition; video event categorization, tagging and retrieval towards big data; computer vision with local binary pattern variants; visual object tracking challenge; computer vision + ontology applies cross-disciplinary technologies; visual perception of affordance and functional visual primitives for scene analysis; graphical models in computer vision; light fields for computer vision; computer vision for road scene understanding and autonomous driving; soft biometrics; transferring and adapting source knowledge in computer vision; surveillance and re-identification; color and photometry in computer vision; assistive computer vision and robotics; computer vision problems in plant phenotyping; and non-rigid shape analysis and deformable image alignment. Additionally, a panel discussion on video segmentation is included.

Users Review

From reader reviews:

Loraine Brown:

Inside other case, little folks like to read book Computer Vision - ECCV 2014 Workshops: Zurich, Switzerland, September 6-7 and 12, 2014, Proceedings, Part II (Lecture Notes in Computer Science). You can choose the best book if you want reading a book. As long as we know about how is important any book Computer Vision - ECCV 2014 Workshops: Zurich, Switzerland, September 6-7 and 12, 2014, Proceedings, Part II (Lecture Notes in Computer Science). You can add expertise and of course you can around the world with a book. Absolutely right, because from book you can understand everything! From your country until finally foreign or abroad you can be known. About simple factor until wonderful thing you may know that. In this era, we could open a book or perhaps searching by internet device. It is called e-book. You should use it when you feel bored stiff to go to the library. Let's study.

Patricia Rhee:

What do you with regards to book? It is not important along with you? Or just adding material when you really need something to explain what your own problem? How about your spare time? Or are you busy person? If you don't have spare time to perform others business, it is make one feel bored faster. And you have time? What did you do? Everyone has many questions above. They must answer that question mainly because just their can do which. It said that about book. Book is familiar on every person. Yes, it is suitable.

Because start from on pre-school until university need that Computer Vision - ECCV 2014 Workshops: Zurich, Switzerland, September 6-7 and 12, 2014, Proceedings, Part II (Lecture Notes in Computer Science) to read.

William Moreau:

The book untitled Computer Vision - ECCV 2014 Workshops: Zurich, Switzerland, September 6-7 and 12, 2014, Proceedings, Part II (Lecture Notes in Computer Science) contain a lot of information on this. The writer explains the woman idea with easy technique. The language is very straightforward all the people, so do certainly not worry, you can easy to read the item. The book was compiled by famous author. The author will bring you in the new era of literary works. It is easy to read this book because you can keep reading your smart phone, or product, so you can read the book inside anywhere and anytime. In a situation you wish to purchase the e-book, you can open their official web-site and order it. Have a nice study.

Jean Gaitan:

In this particular era which is the greater person or who has ability in doing something more are more precious than other. Do you want to become among it? It is just simple solution to have that. What you must do is just spending your time not very much but quite enough to have a look at some books. Among the books in the top listing in your reading list is usually Computer Vision - ECCV 2014 Workshops: Zurich, Switzerland, September 6-7 and 12, 2014, Proceedings, Part II (Lecture Notes in Computer Science). This book that is certainly qualified as The Hungry Mountains can get you closer in becoming precious person. By looking upward and review this reserve you can get many advantages.
