Editorial Review

Review
Voyagers I, 2e, is the tip of an iceberg beyond the imaginations of those who think they know the story. -- *The 5th World Journal, #2001.2*

From the Publisher
This expanded second edition of the sold-out first edition is a necessary companion to the awesome Volume II, second edition, which covers Earth history back 550 million years up through 9/11 and the WTC attacks, within a multidimensional cosmic framework. This first volume sets up the groundwork necessary to understand the astonishing information in Volume II: Who is who out there? What agendas are they playing? How do we fit in? What are our choices?

From the Author
Voyagers is a set of books best approached by asking the question: What do we really know about the nature of reality? Many of the ideas presented in this book are different from the old belief paradigms through which we have been taught to view reality. They do not negate the old, but rather challenge old ideas to evolve. I suggest that the reader take an open-minded approach to the information contained in this book, in order to receive the benefits of the Voyagers material. The greatest benefit of the Voyagers perspective is the gift of an uncommon knowledge, through which mysterious aspects of reality can be comprehended. Challenges inspire growth, and Voyagers is a challenge. It is a book to grow with in your quest for understanding. Not the average book, its implications are so intrinsically profound that at times they seem unbelievable, but this is not a fiction story, not just a book of ideas. It is evidence of a most intimate and extraordinary journey through personal experiences. This book is not about my personal experiences, rather it is the result of those experiences. Approached with flexibility and intuition, its message can be enlightening and transformational.

Users Review

From reader reviews:

Anna Harlow:

Spent a free time and energy to be fun activity to do! A lot of people spent their free time with their family, or all their friends. Usually they undertaking activity like watching television, about to beach, or picnic in the park. They actually doing ditto every week. Do you feel it?
