Computers in the Medical Office By Susan Sanderson

A Doody's Core Title for 2015.

Computers in the Medical Office 8e is the best-selling text for training students using full-featured and current Medisoft Version 17 Patient Billing software. McGraw-Hill publishes the most titles to train students on Medisoft software. Our publishing relationship with Medisoft has been ongoing for 15 years. **Computers in the Medical Office 8e** offers medical office training using current, realistic medical office cases while building transferable computerized medical billing and scheduling skills. Students who complete this course will learn the appropriate terminology and skills to use any patient billing software program with minimal additional training. As students progress through Medisoft, they learn to gather patient information, schedule appointments and enter transactions. The practical, systematic approach is based on real-world medical office activities. Go with the best. Go with the tried and true. Go with the Medisoft titles that will give you and your students the training and support you need to be successful. Go with McGraw-Hill's **Computers in the Medical Office 8e**.

Editorial Review

About the Author
Susan M. Sanderson, Senior Technical Writer for Chestnut Hill Enterprises, Inc., is the author of the best-selling textbook, Computers in the Medical Office, 7th edition, and is now the author of Practice Management and EHR: The Total Patient Encounter for Medisoft Clinical. She also authored Electronic Health Records for Allied Health Professions, Case Studies for Use with Computers in the Medical Office, and Patient Billing. In her more than ten years' experience with Medisoft, and now Medisoft Clinical, Susan has participated in alpha and beta testing, has worked with instructors to site test materials, and has provided technical support to McGraw-Hill customers. In 2009 Susan earned CPEHR (Certified Professional in Electronic Health Records) certification. In addition, she is a member of the Health Information and Management Systems Society (HIMSS). Susan is a graduate of Drew University with further study at Columbia University.

Users Review

From reader reviews:

Susie Vadnais:

Have you spare time for just a day? What do you do when you have more or little spare time? Yep, you can choose the suitable activity with regard to spend your time. Any person spent their own spare time to take a go walking, shopping, or went to often the Mall. How about open or read a book titled Computers in the Medical Office? Maybe it is for being best activity for you. You realize beside you can spend your time together with your favorite's book, you can wiser than before. Do you agree with it is opinion or you have different opinion?

Roy Stoudt:

Book is to be different for every single grade. Book for children right up until adult are different content. As it is known to us that book is very important for all of us. The book Computers in the Medical Office seemed to be making you to know about other understanding and of course you can take more information. It is quite advantages for you. The guide Computers in the Medical Office is not only giving you considerably more new information but also being your friend when you sense bored. You can spend your current spend time to read your publication. Try to make relationship using the book Computers in the Medical Office. You never sense lose out for everything should you read some books.

Ann Yoho:

Information is provisions for individuals to get better life, information currently can get by anyone at everywhere. The information can be a understanding or any news even restricted. What people must be consider while those information which is inside former life are challenging to be find than now could be taking seriously which one is appropriate to believe or which one often the resource are convinced. If you find the unstable resource then you buy it as your main information it will have huge disadvantage for you.

All of those possibilities will not happen within you if you take Computers in the Medical Office as the daily resource information.

Valerie Beauchamp:

Reading a guide tends to be new life style on this era globalization. With studying you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can share their idea. Guides can also inspire a lot of people. A great deal of author can inspire their very own reader with their story or their experience. Not only situation that share in the textbooks. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors these days always try to improve their talent in writing, they also doing some research before they write for their book. One of them is this Computers in the Medical Office.
