Everyday Ethics: Voices from the Front Line of Community Psychiatry By Paul Brodwin

This book explores the moral lives of mental health clinicians serving the most marginalized individuals in the US healthcare system. Drawing on years of fieldwork in a community psychiatry outreach team, Brodwin traces the ethical dilemmas and everyday struggles of front line providers. On the street, in staff room debates, or in private confessions, these psychiatrists and social workers confront ongoing challenges to their self-image as competent and compassionate advocates. At times they openly question the coercion and forced-dependency built into the current system of care. At other times they justify their use of extreme power in the face of loud opposition from clients. This in-depth study exposes the fault lines in today's community psychiatry. It shows how people working deep inside the system struggle to maintain their ideals and manage a chronic sense of futility. Their commentaries about the obligatory and the forbidden also suggest ways to bridge formal bioethics and the realities of mental health practice. The experiences of these clinicians pose a single overarching question: how should we bear responsibility for the most vulnerable among us?

Editorial Review

From the Inside Flap

“Paul Brodwin’s rich and historically sensitive ethnographic account, *Everyday Ethics: Voices from the Front Line of Community Psychiatry*, is a highly accessible introduction to the ethical dilemmas of Assertive Community Treatment (ACT). While clearly demonstrating the system’s flaws, this dynamic and well-researched work avoids the common tendency to villainize, lionize, or otherwise simplify its professionals, allowing their ethical quandaries to become our own.” E. Summerson Carr, author of *Scripting Addiction: The Politics of Therapeutic Talk and American Sobriety*

"*Everyday Ethics* is a crucial account that deserves to be widely read. A serious anthropological contribution to medical ethics. This book unpacks community care-so key to global health-and does the same for the ethics of practice. It leaves the reader with wonder, puzzlement and ultimately acknowledgment of the impossible yet unavoidable struggles at the heart of caregiving."—Arthur Kleinman, author of *What Really Matters*

"This is a masterful, disturbing ethnography of ethical decision making at 'the rough edges of community psychiatry."—Mary-Jo DelVecchio Good, co-author of *Shattering Culture: American Medicine Responds to Cultural Diversity*
