Reinventing Leadership: Strategies to Empower the Organization (Collins Business Essentials) By Warren G. Bennis, Robert Townsend

Leadership for the 21st Century

The demands of today's workplace call for stronger and more inspiring leadership in order to motivate employees and to achieve the quality results for which successful organizations constantly strive.

In *Reinventing Leadership*, Warren G. Bennis and Robert Townsend show leaders how to empower their organizations and bring the best out of each employee.

Inside you will find useful leadership strategies that include:

- Moving away from conventional standards of business practice
- Building trust
- How to find a mentor
- Rewarding accomplishment

These strategies will help transform leadership visions into reality and lead organizations into a future that includes increased employee satisfaction and continued economic growth.

Editorial Review

From Publishers Weekly
Are organizations better controlled, guided and directed by leadership or by management? The title of this book gives the authors' answer. The distinction between leadership and management is presented in platitudes, e.g., "The manager maintains: the leader develops." Bennis (Why Leaders Can't Lead) and Townsend (Up the Organization) further state that militaristic, command-and-control leadership has become anachronistic, and that the current downsized, flat-management era requires a new leadership style. To help readers develop the desirable new leadership traits, "dialogue starters" are suggested at the end of each chapter. The book concludes with a 21-day plan to help readers apply the pithy principles. Perhaps some might benefit from such a plan, but readers should be as skeptical of that laudable goal as they would be of a big weight loss in so short a time.

From Booklist
The names on the cover virtually ensure this collection of conversations will appeal to the business crowd. Bennis, author of *On Becoming a Leader*, and Townsend, who wrote *Up the Organization*, chat about the qualities that should characterize today's corporate leaders. The conversations, albeit witty and wise, reveal little that previous writings and prior authors haven't already explored. The appendix, a 21-day plan for becoming a more effective leader, is definitely no substitute for years of experience and introspection. But there are important messages shared here: the next century's emphasis on intellectual capital, the principle of empowerment, and the transformation of COP (control, order, and predict) into ACE (acknowledge, create, and empower), among others. *Barbara Jacobs*

About the Author

Warren G. Bennis is university professor and founding chairman of the Leadership Institute at the University of Southern California. He is also chairman of the Center for Public Leadership at Harvard's Kennedy School and Distinguished Research Fellow at the Harvard Business School. He has written more than twenty-five books on leadership, change, and creative collaboration including *Leaders*, which was recently designated by the *Financial Times* as one of the top 50 business books of all time. His most recent book is *Geeks & Geezers*.

Robert Townsend was a former director of American Express, and was the author of the *New York Times* best seller *Up the Organization*.

Users Review
